

... Extract from the References

Bezeichnung/ description	Kunde/ customer	Jahr/ year
Packing machine and palletizing Location Klein-Schulzendorf	maxit-D	1998
Feasibility study on the recycling of Styrofoam in dry mortars	Beamix-NL	1998
Ready mixed product silo und silo truck loading Location St. Vulbas (Lyon)	maxit-F	1998
Extension palletizing (Stretch hood) Location Barby	maxit-D	1998
Packing machine and palletizing (Rotoseal) Location Grimbergen	Beamix-B	1998
Project study Plant Development Location Eindhoven	Beamix-NL	1998
Dosing system for liquid additives Location St. Vulbas (Lyon)	maxit-F	1999
Project study dry mortar plant Location Großenlüder	Z&K Otterbein	1999
Modernization and expansion dry mortar plant Location Zandobbio (Bergamo)	maxit-I	1999
Dosing system for liquid additives Location Klein-Schulzendorf	maxit-D	1999
Dosing system for liquid additives Location Boningen	maxit-CH	1999
Extension ready mixed product Location Klein-Schulzendorf	maxit-D	1999
New construction dry mortar plant Location Lasse	maxit-A	2000
Consulting to a investment situation Location Klein-Schulzendorf	maxit-D	2000
Optimizing ready mixed silo and packing plant Location Barby	maxit-D	2000
Extension ready mixed product silo plant Location Zandobbio (Bergamo)	maxit-I	2001
Extension of a transport and dosing unit for	Schwepa-D	2002

Bezeichnung/ description	Kunde/ customer	Jahr/ year
dispersion powder Location Ottersweier		
New construction of a dry mortar plant inclusive a preparation plant unit Marnilit location Muc/ Kroatien	Haver & Boecker	2002
Engineering for dosing and weighting part Stonecrete/ Mexiko	Haver & Boecker	2002
Consulting new construction packing plant Location Belgrad	Roadstone-IR	2002
Extension raw material silo plant Location Zandobbio (Bergamo)	maxit-I	2003
Modification packing plant Grigolin location Ettlingen	Haver & Boecker	2003
Consulting of site selection Location Lombardei	maxit-I	2003
Analysis of a dry motar production plant Location Unna	Henkel-D	2003
Feasibility study for relocation of a dry motar plant, Location Zandobbio	maxit-I	2003
Pneumatic transport of quartz sand grain size up 8 mm Location Rubigen	maxit-CH	2003
New construction of a special test production plant and siloplant YTONG location Brück	Xella-D	2003
Supply of mechanical equipment and supervising of installation at the test-production and silo plant Xella Porenbeton AG Werk Brück	HANIEL Baustoff – Industrie Deutschland	2004
Supply and installation of a dosing system for liquid additives. Location Xella Brück	HANIEL Baustoff – Industrie Deutschland	2004
Consideration of the existing production process mixing plant for gypsum products. Location Vakuf	Komar-Gips Donji Vakuf Bosnien u. Hercegowina	2004
Engineering for modification for a hydrated lime loading plant Knauf Marmorit GmbH/ Location Bollschweil	Bissinger GmbH Deutschland	2004

Bezeichnung/ description	Kunde/ customer	Jahr/ year
Planning a system with pneumatic conveying lines Knauf / Location Rottleberode	Bissinger GmbH Deutschland	2004
Engineering and modification hydrated lime loading Location Bollschweil	Knauf Marmorit GmbH	2004
Preliminary modernization for cellular concrete mixing plant Location Laußig	Xella GmbH	2004
Preliminary engineering for a hydrated lime silo plant HeidelbergerCement AG Location Lengfurt	Bissinger GmbH Deutschland	2004
Preliminary engineering for a powder loading silo HeidelbergerCement AG Location Lengfurt	Bissinger GmbH Deutschland	2004
Inventory and planning for insulation panel production Xella Location Calbe	Xella T+ F GmbH	2004
Concept, planning and budgeting for a testing and sand plant Location Brück	Xella T+F GmbH	2004
Extension of the existing ready mixed silo plant Location St.Vulbas	Maxit S.A.S. Frankreich	2005
Asset valuation of an existing dry mortar plant, including modifications regarding the consideration of the existing product range	Schwarzwälder Edelputz GmbH	2005
Planning an additional resource extraction, related weighing and dosing Location Worms/ company Aksys GmbH	Bissinger GmbH Deutschland	2005
Engineering, supply and assembly for Textile silos including dosing	Knauf Marmorit Bollschweil	2005
Project management and overall planning of a grinding plant for silica sand (ball mill) Location Brück	Xella Technologie- und Forschungs- gesellschaft mbH	2005
Raw material analysis and consulting and engineering for pre-concept for a new building material production line	Posebni Projekti d.o.o. Split Kroatien	2005
Supply machines and assembly for a testing-grinding plant for silica sand Location Brück	Xella Technologie- und Forschungs- gesellschaft mbH	2006

Bezeichnung/ description	Kunde/ customer	Jahr/ year
Engineering and budgeting for the extension of a silica and limestone sand plant Location Holderbank	FIXIT AG CH	2006
Preliminary new gypsum plant.	FIXIT AG CH	2006
Views on the feasibility of a new sand plant in the existing plant complex. Location Weiach	FIXIT AG CH	2006
Engineering and budgeting for a new mixing plant The part of dry mortar mixing for a AAC - plant	Xella Baustoffe GmbH	2006
Engineering to manufacture, transport and storage of sand mud.	Xella Baustoffe GmbH	2006
Engineering for a substance production of cutting waste for a AAC- production	Xella Baustoffe GmbH	2006
Supply machines for a sand preparation plant Location Holderbank	FIXIT AG CH	2007
Planning and installation of a pneumatic transport system for silica sand powder Location Brück	Xella Technologie- und Forschungs- gesellschaft mbH	2007
Concept and budgeting a small mixing plant for plasters and adhesives	Schwarzwälder Edelputz GmbH	2007
Planning an additional resource extraction, related weighing and dosing Location Worms/ Company Aksys GmbH	Bissinger GmbH Deutschland	2007
Hall expansion project areas, and implementation of new raw material silo approach Location Aldingen- Neuhaus	Holpp Betonwaren GmbH & Co KG	2007
Planning and documentation for silica sand input at the AAC- plant Location Bilecik / Türkei	Xella Baustoffe GmbH	2007
Planning and documentation for mixing part – AAC- plant Location Bilecik / Türkei	Xella Baustoffe GmbH	2007
Design for modification of existing sand preparing plant Location Ettlingen	Grigolin Deutschland GmbH	2008
Engineering a new mixing and silo plant for a concrete plant.	Holpp Betonw. GmbH & Co.KG	2008

Bezeichnung/ description	Kunde/ customer	Jahr/ year
Concept - preliminary EPS metering system for concrete plant	Tehnika d.o.o Kroatien	2008
Design and budgeting for a new dry mortar plant HAGA nature materials AG	Lüscher AG Schweiz	2009
Planning service special plant – Poraver -	GIEMA GmbH	2009
Concept feed mixing plant Location Muc/ Split	Mamić Split Kroatien	2009
Mobile Big-Bag filling station Location Ottersweier	Schwepa	2009
Concept an planning of a transport and dosing system for molding sands.	GIEMA GmbH	2009
Design and planning special mixing dry and slightly moist mortar based on epoxy resin.	KLB Kötztal	2010
Supply small concrete plant, dosing, weighting mixer system. Location Denkingen	B.Dreher Betonbau	2010
Conception, planning and budgeting for plant dry tower special mortar (fibers and epoxy resin)	Lüscher AG Schweiz	2010
Mixingsilo followed by conveyor to 3 pieces extruder - plastic granule production	SR Schwarzataler Recycling GmbH	2011
Weighing and bagging plant for auxiliary agents and additives for the manufacture of special concrete S&P Reinforcement Company AG – Schweiz	Giema GmbH	2011
Designing small mixing plant for tile adhesives and mortar specialty - Colombia	REM Company B.V. Niederlande	2011
Design of a special mixing and feed pump unit for earth-moist concrete	Giema GmbH	2011
